'PHONE LINE TO COURTHOUSE

The County Will Likely Subscribe Four
Thousand Dollars to Assist Chesapeake and Ohio Railroad Build
a Bridge at Wingina.

(Special Dispatch to The Times.)
DELWYN, VA., June 4.—On Monday the Buckingham Telephone Company was organized and a charter applied for. R. F. Ellis was made president and A. C. Garrett, Jr., secretary and treasurer. The company will build their first line from Virginia to White Hall via Buckingham Courthouse. Sufficient stock for this has been subscribed and as soon as the charter is approved by Judge Humbley, it is line will be built.

The Board of Supervisors at their meeting Monday informally discussed the building of a bridge at Wingina. The bridge is estimated to cost \$2,200, of this amount the county is asked to contribute \$4,000, and the C. & O. railway will give the balance and will keep the bridge in repair. The board adjourned until next Tuesday for final action upon the matter. The impression is that the board will vote the contribution asked for.

Buckingham county is very much interested in the extension of the railroad from Romney to Farmville and Janyville. The extension of this road will be of great benefit to White Hall as it will give those engaged in the tobacco business greater facilities for handling their commodity, and will place White Hall in touch with Farmville, where the bulk of the Austrian and Italian orders are found. Buckingham grows tobacco largely for those orders, something like seven million pounds being raised in the county.

NEW POSTMASTER.
Mr. E. D. Gregory assumed charge of the Postoffice here the first of the month. He has moved it near the depot into a building where he proposes to carry a general line of merchandise. Mr. W. Smith, the efficient assistant postmaster and clerk has been retained.

Miss Laura E. Gregory who inherited a fortune left by her Western fiancé, has bought from Mr. Hancock his beautiful home and has moved into it with her invalid mother.

Mr. William P. Venable, of the Planters Bank, Farmville, was in town last week talking to our representative men in regard to establishing a bank at White Hall. Buckingham is one of the few counties in the State without a bank, and it seems to be a place where a more inviting field for such an enterprise. Buckingham, with her slate quarries, mineral developments of gold and copper, lumber business, growing tobacco resources, and prosperous merchants all over the county, ought indeed to furnish a good business for a bank from the day it is opened, and her people are inclined to patronize home developments. Colonel Moore, representing the Virginia and Duluth Development Company, is securing and closing options on a great deal of mineral land in the southern part of the county in the vicinity of Andersonville. As soon as this preliminary work is completed developments on a large scale are expected. It is rumored that the company will build and equip a railroad from White Hall to their property, a distance of nine miles.

OPEN COPPER MINE.
Messrs. John Cowan & Co., of Baltimore, are sinking the shaft deeper in the Lightfoot mine near Arvonita. At this writing they have sunk the shaft eight feet and are much encouraged, as the quality of the ore has improved and the vein widened to such an extent that they propose to erect a smelter at the mine and reduce the ore there.

The extreme dry weather is giving the farmers much apprehension. Fertilizer is in the ground, plants are overgrown, and they have been waiting patiently for a season for transplanting. Unless it rains soon, the tobacco crop in Buckingham will be a failure. Some farmers are talking of putting the land planted for tobacco in corn.

William Jamerson, an ex-convict, is in jail, committed for breaking in the store of O. G. Lesueur at Alpha. He has confessed.

The ladies of the Parsonage Society of this place will give refreshments for the church on Friday, June 6th. The proceeds will be used for furnishing the parsonage.

LIFTFOOT COPPER MINE
Was Worked Many Years Ago and Paid Well; Now Reopened.

(Special Dispatch to The Times.)
ARVONITA, VA., June 4.—The Lightfoot copper mine, two miles from here, was worked in 1888 and 1889, and was fully up to the beginning of the Civil War, some of the ore selling as high as \$80 to \$100 per ton. The mine has been worked several times since, but owing to lack of capital or other cause has stopped. It has recently been purchased by a Baltimore Company, who are expending very considerable expenses in putting machinery, tools, etc., in place. Mr. Cowan and Mr. E. D. Gregory are carrying on the erection of machinery, and seem determined to work the mine to its fullest capacity. Results so far are highly satisfactory.

Mr. White Hughes is building a beautiful residence. When completed it will be one of the most pretty buildings here. At a recent meeting of the District Conference in Richmond, Mr. W. E. Thacker, of this place, was licensed to preach.

HEAVY DAMAGE SUITS.
Highly Interesting Term of Judge Harrison's Court.

(Special Dispatch to The Times.)
WINCHESTER, VA., June 5.—The coming term of the Circuit Court, which will convene in this city on next Monday, with Judge Thomas W. Harrison presiding, will be one of the most interesting that has been held here in years. There will be four damage suits on the docket aggregating the sum total of thirty-five thousand dollars. One of these will be that of Turner A. Lewis vs. the Old Dominion Paper Mill, a branch of the American Steamboard Company, which was carried on by the mill because his hands were maimed while he was in the employ of that company as an engineer. Another is that of Mrs. A. E. Carroll vs. the City of Winchester for five thousand dollars damages for permanent injuries due to a fall from a sidewalk in June, 1898. This suit was once before tried in this city, and the plaintiff secured a verdict of two hundred dollars, which was not satisfactory. The Supreme Court of the State, where the verdict was set aside. The other two suits are for ten thousand dollars each, and are brought by the administrators of Lewis Price and Jacob Houck, colored, vs. the Winchester Gas and Light Company. The two men were killed last July by coming in contact with a live electric light wire which was hanging loose on one of the principal streets of this city.

It is not definitely known whether another important suit will be heard at

this court, or be transferred to some other court of similar power by Judge Harrison. This is the suit of former City Solicitor R. M. Ward to recover of the local services rendered in the litigation with the State of Pennsylvania to escape the payment of an inheritance tax assessed this city as the chief beneficiary of the late Judge John Handley's estate. Judge Handley died in Scranton, Pennsylvania, seven years ago, and left to this city rents and interests from his large estate then estimated to be worth several million dollars. When this income had been invested in Virginia bonds until two amounts of five hundred thousand dollars each had accrued, then a public library is to be built and maintained out of one of the sums and the other \$500,000 is to be utilized in the erection and maintenance of industrial schools for the education of the white children of Winchester. The city has now received about one hundred thousand dollars from the estate.

Prominent lawyers will be represented in the legal struggle. Mr. Ward has engaged as his counsel Conrad Kownslar and Marshall McCormick, of Clarke; the city will be represented by former U. S. Solicitor General Holmes Conrad, and City Solicitor John M. Steat. The Hand-City Solicitor John M. Steat, who rely Board of Trustees—nine men who rely the city—have engaged R. E. Byrd, of this city, and A. Moore, Jr., of Clarke, and the Handley executors will most probably be represented by General Palmer, of Scranton, Pennsylvania, one of the executors.

KING'S DAUGHTERS OF CHARLES CITY

Hold Joint Meeting and Elect
General Secretary—Improvements to Westover Church.

(Special Dispatch to The Times.)
CHARLES CITY, VA., June 5.—A Union meeting of the three circles of the King's Daughters of this county was held at Westover Church on yesterday. The object of which was to report the past year's work of the three circles and to elect a county secretary. As the various members were somewhat late in arriving, the elegant lunch which had been brought by the ladies, was served before the meeting. Clarence Benton, State secretary of the King's Daughters, addressed the meeting. Her remarks were well chosen and she set forth in the happiest manner the work of the organization. The beautiful spirit of love and self-sacrifice which the members of the circles are giving evidence of every day in their ministrations to sick and needy. Mrs. Benton, in closing her remarks, extended an invitation to the several gentlemen (who were allowed to come in and listen) to join as King's Sons. Five responded and were enrolled as members. Miss Nina Wilcox was unanimously reappointed county secretary and was much complimented for her past year's work.

There was also held a joint meeting of the vestry of Westover parish and the King's Daughters, the object of which was to decide about some improvements to be made to the interior of the church. This edifice is of the colonial style of architecture seen throughout the tide-water section of the State, built of brick and with very little effort at ornamentation. The interior is a beautiful one, the people who gather there to hear the weekly services, the ancestors of many of whom worshipped in the old church many generations ago. The church originally stood at the old graveyard, and the plan of the building was to be a simple one, but the present site was built in the early part of the sixteenth century. During the late war it was used at one time by the Federal cavalry and at present is for their troops, and at present is as the same occupation as it was soon after the war, when the congregation got together and made a few repairs, the best they could afford at that time. The improvements now suggested will add greatly to the beauty of the interior of this old and sacred edifice.
